In the group exhibition *same same but different*, all the program artists from galerie burster and Evelyn Drewes | Galerie come together for the first time in a shared dialogue. The exhibition brings together 23 artists, whose works cover a wide spectrum of contemporary art – from painting and sculpture to performance and conceptual pieces.

The title of the exhibition deliberately references the idea of similarity and difference. The works on display often share certain formal or thematic starting points but move in different directions in terms of expression and interpretation. This dialectical tension between commonality and deviation shapes the exhibition and opens up new perspectives on the relationship between repetition and variation.

Same same but different not only provides an overview of the work of the participating artists but also serves as an experiment in curatorial collaboration, where the boundaries between galleries, artists, and artworks are dissolved and redefined. In this exhibition, the interaction between the works unfolds, highlighting all facets of contemporary art.
